- 2** Steel Target Special

"Recent Installations"

Our Services

Savage Range Systems offers total range solutions for the finest, safest, and cleanest, lowest-maintenance shooting ranges, bullet traps, steel target systems, and 360-degree shoot houses. Bullet traps utilizing wet **Snail®** technology, combined with low angle ramps and 360-degree deceleration chambers, safely capture bullets while virtually eliminating splatter, ricochet and airborne lead. Specializing in custom systems, including fully-automatic .50cal BMG, **Savage** is the choice for military and law enforcement agencies nationwide, commercial and private shooting ranges, and for virtually every firearms and ammunition manufacturer.

New Website

Our new website launches in November. Please check it out at www.SavageRangeSystems.com

Recent Installations

Recently installed traps and ranges include:

- Anniston Army Depot
- Century Arms
- Advanced Armament
- Ohio Ordnance Works
- Windham Weaponry

Impact Movie

We recently commissioned a short impact movie that gives an excellent overview of what we do. To view the movie, please click... <https://s3.amazonaws.com/savagerangesystems/media/flash/srangelvision.swf>

Check-It Clearing Station

The **Check-It** bullet trap is designed as a firearms “clearing station”, to ensure no live ammunition is present before storing or cleaning a firearm. Each **Check-It** bullet trap uses **Snail® System** low angle entrance ramps and circular deceleration chamber to safely capture bullets. The patented low angle entrance ramps deflect the bullet into our patented round deceleration chamber where the bullet loses energy and safely drops to the bottom.

The **Freestanding Check-It** (pictured left) safely handles firearms up to 3000FPE (.308 Win Mag) and is **\$675**. Other models are available.

NRA RDOC

We will be present at the next **NRA Range Development and Operations Conference**, which will be held in Atlanta, GA, March 17th-22nd. The conference provides an excellent opportunity for existing and prospective range operators to expand their knowledge regarding building and maintaining a shooting facility.

Topics covered include:

- Developing business and master plans
- Public hearings and zoning boards
- Environmental sound
- Insurance
- Range maintenance
- Range safety

For more information, contact **Kara Schlifke** at KSchlifke@nrahq.org or 703-267-1276.

“Steel Target Special”

Handgun Rated Steel Targets

We have a limited number of 8” Knockover Plates available for the special price of \$25 each. Please contact us for availability.
