

# CHECK-IT!™ CLEARING STATIONS

## CHECK-IT!™ CLEARING STATION

The Check-It!™ Series are firearm clearing stations. They are specially designed as a firearms safety device to ensure that no live ammunition is present before storing or cleaning a firearm. They safely capture bullets from accidental discharges and eliminates ricochet. The patented deceleration system is nearly impenetrable, providing maximum performance and longevity. This simple, ingenious design has completely revolutionized the bullet trap industry.

## BENEFITS

- Captures bullets from accidental discharges and eliminates ricochet.
- Low-angle entrance ramps deflect the bullet into our patented round deceleration chamber where it loses energy and safely drops to the bottom.
- No media to wear or replace.
- Low maintenance.

## SPECIFICATIONS

- Fully welded, one-piece construction.
- Low-angle entrance ramps and deceleration chamber manufactured from AR500.
- Powdered-coated finish.
- Bolt-down holes.

ISO 9001:2015 Certified QM Registered Company

## MODELS

### MINI CHECK-IT!

- 13" x 4" x 15", 33 pounds
- 2.5" shooting port
- Handles handguns, shotguns and rimfire rifles up to 1,400 FPE

### FREESTANDING CHECK-IT!

- 19" x 10" x 27" (10" x16" base), 95 pounds
- 3" shooting port
- Handguns, shotguns and rifles up to 3,000 FPE
